Huawei inverter reporting - Fusionsolar

Download the **Fusionsolar** app for Android or iPhone from:
https://intl.fusionsolar.huawei.com/pvmswebsite/nologin/assets/build/index.html#/jumppage

Or scan this QR code to download the App.
Tip. Do not use Android Play Store or Apple iStore to download the app.
They are not the latest versions.

Login using the username and temporary password (solar4ever) that we have provided by email

Change the password to one of your choosing when you first login to the app or web browser

You can also login via a **web browser** by clicking the picture below…

Tip
When the page opens, bookmark the page in your browser

Web browser functions

Click 'List view' from the Home drop-down
Then click on the blue link under 'Plant Name'
This will give the 'Overview' of your solar production which will update approximately every 15 minutes.

If you want to download detailed information as an Excel spreadsheet (e.g. voltages and current) then click on the 'Device Management' tab, then select your inverter and click 'Export Performance Data'

If you would prefer your solar data as an email, click the 'Reports' tab, then 'Subscribe', 'Add' and enter the email address(s) you would like the data to go to.

The web browser version of Fusionsolar has many more features than the phone app. See comparison list on next page…
