

# **Create account and PV plant with FusisonSolar APP**

## Huawei Technologies Co. Ltd.

Version	Created by	Date	Remarks
02	Huawei e84081311	19.03.2019	<b>FusionSolar APP</b>

The information in this document may contain predictive statements including, without limitation, statements regarding the future financial and operating results, future product portfolio, new technology, etc. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied in the predictive statements. Therefore, such information is provided for reference purpose only and constitutes neither an offer nor an acceptance. Huawei may change the information at any time without notice.

This document describe the process how to create an account and the PV plant using the FusionSolar APP.

## 1. Download and install the FusionSolar APP and FusionHome APP

Search for **FusionSolar** in one of the following app stores, download the installation package, and install the FusionSolar App by following the instructions.

- Play Store (Android)
- App Store (iOS)
- Huawei App Store (Android)

2. Open the FusionHome APP and select from main page FusionHome

#### 3. Check the connection with Management System

Connect on SUN2000L inevrter with FusionHome APP that you open from FusionSolar APP and check the connection of the inverter with the router and management system.

#### **3.1 Check the router connection settings**

Login as installer on FusionHome→Communication configuration→Router connection settings→set your WiFi network→Join→choose Switch to the router WiFi network→select your WiFi network from the list→connect again on inverter

#### 4. Create account with FusionSolar APP

Open FusionSolar APP and choose Installer Registration $\rightarrow$  fill all the requested data $\rightarrow$ Registration

You will receive the message that "You have registered successfully"  $\rightarrow$  go to your email  $\rightarrow$  choose activation link to activate your account  $\rightarrow$  confirm  $\rightarrow$  login with user and password that you just created

## 5. Create PV plant

Choose form the main page "+"  $\rightarrow$  Add Plant  $\rightarrow$  fill the plant details (structure is the same with your account)  $\rightarrow$  select Next

Select SN $\rightarrow$ Enter device SN (scan or you can enter manually) $\rightarrow$ Confirm the SN $\rightarrow$ Save $\rightarrow$ Select Smart Energy Center (SUN2000L) $\rightarrow$ Save $\rightarrow$ Check the plant status
